Karat Sanitary ware & Englefield faucets
2020-2021

NEW ARRIVAL

Moonstone II

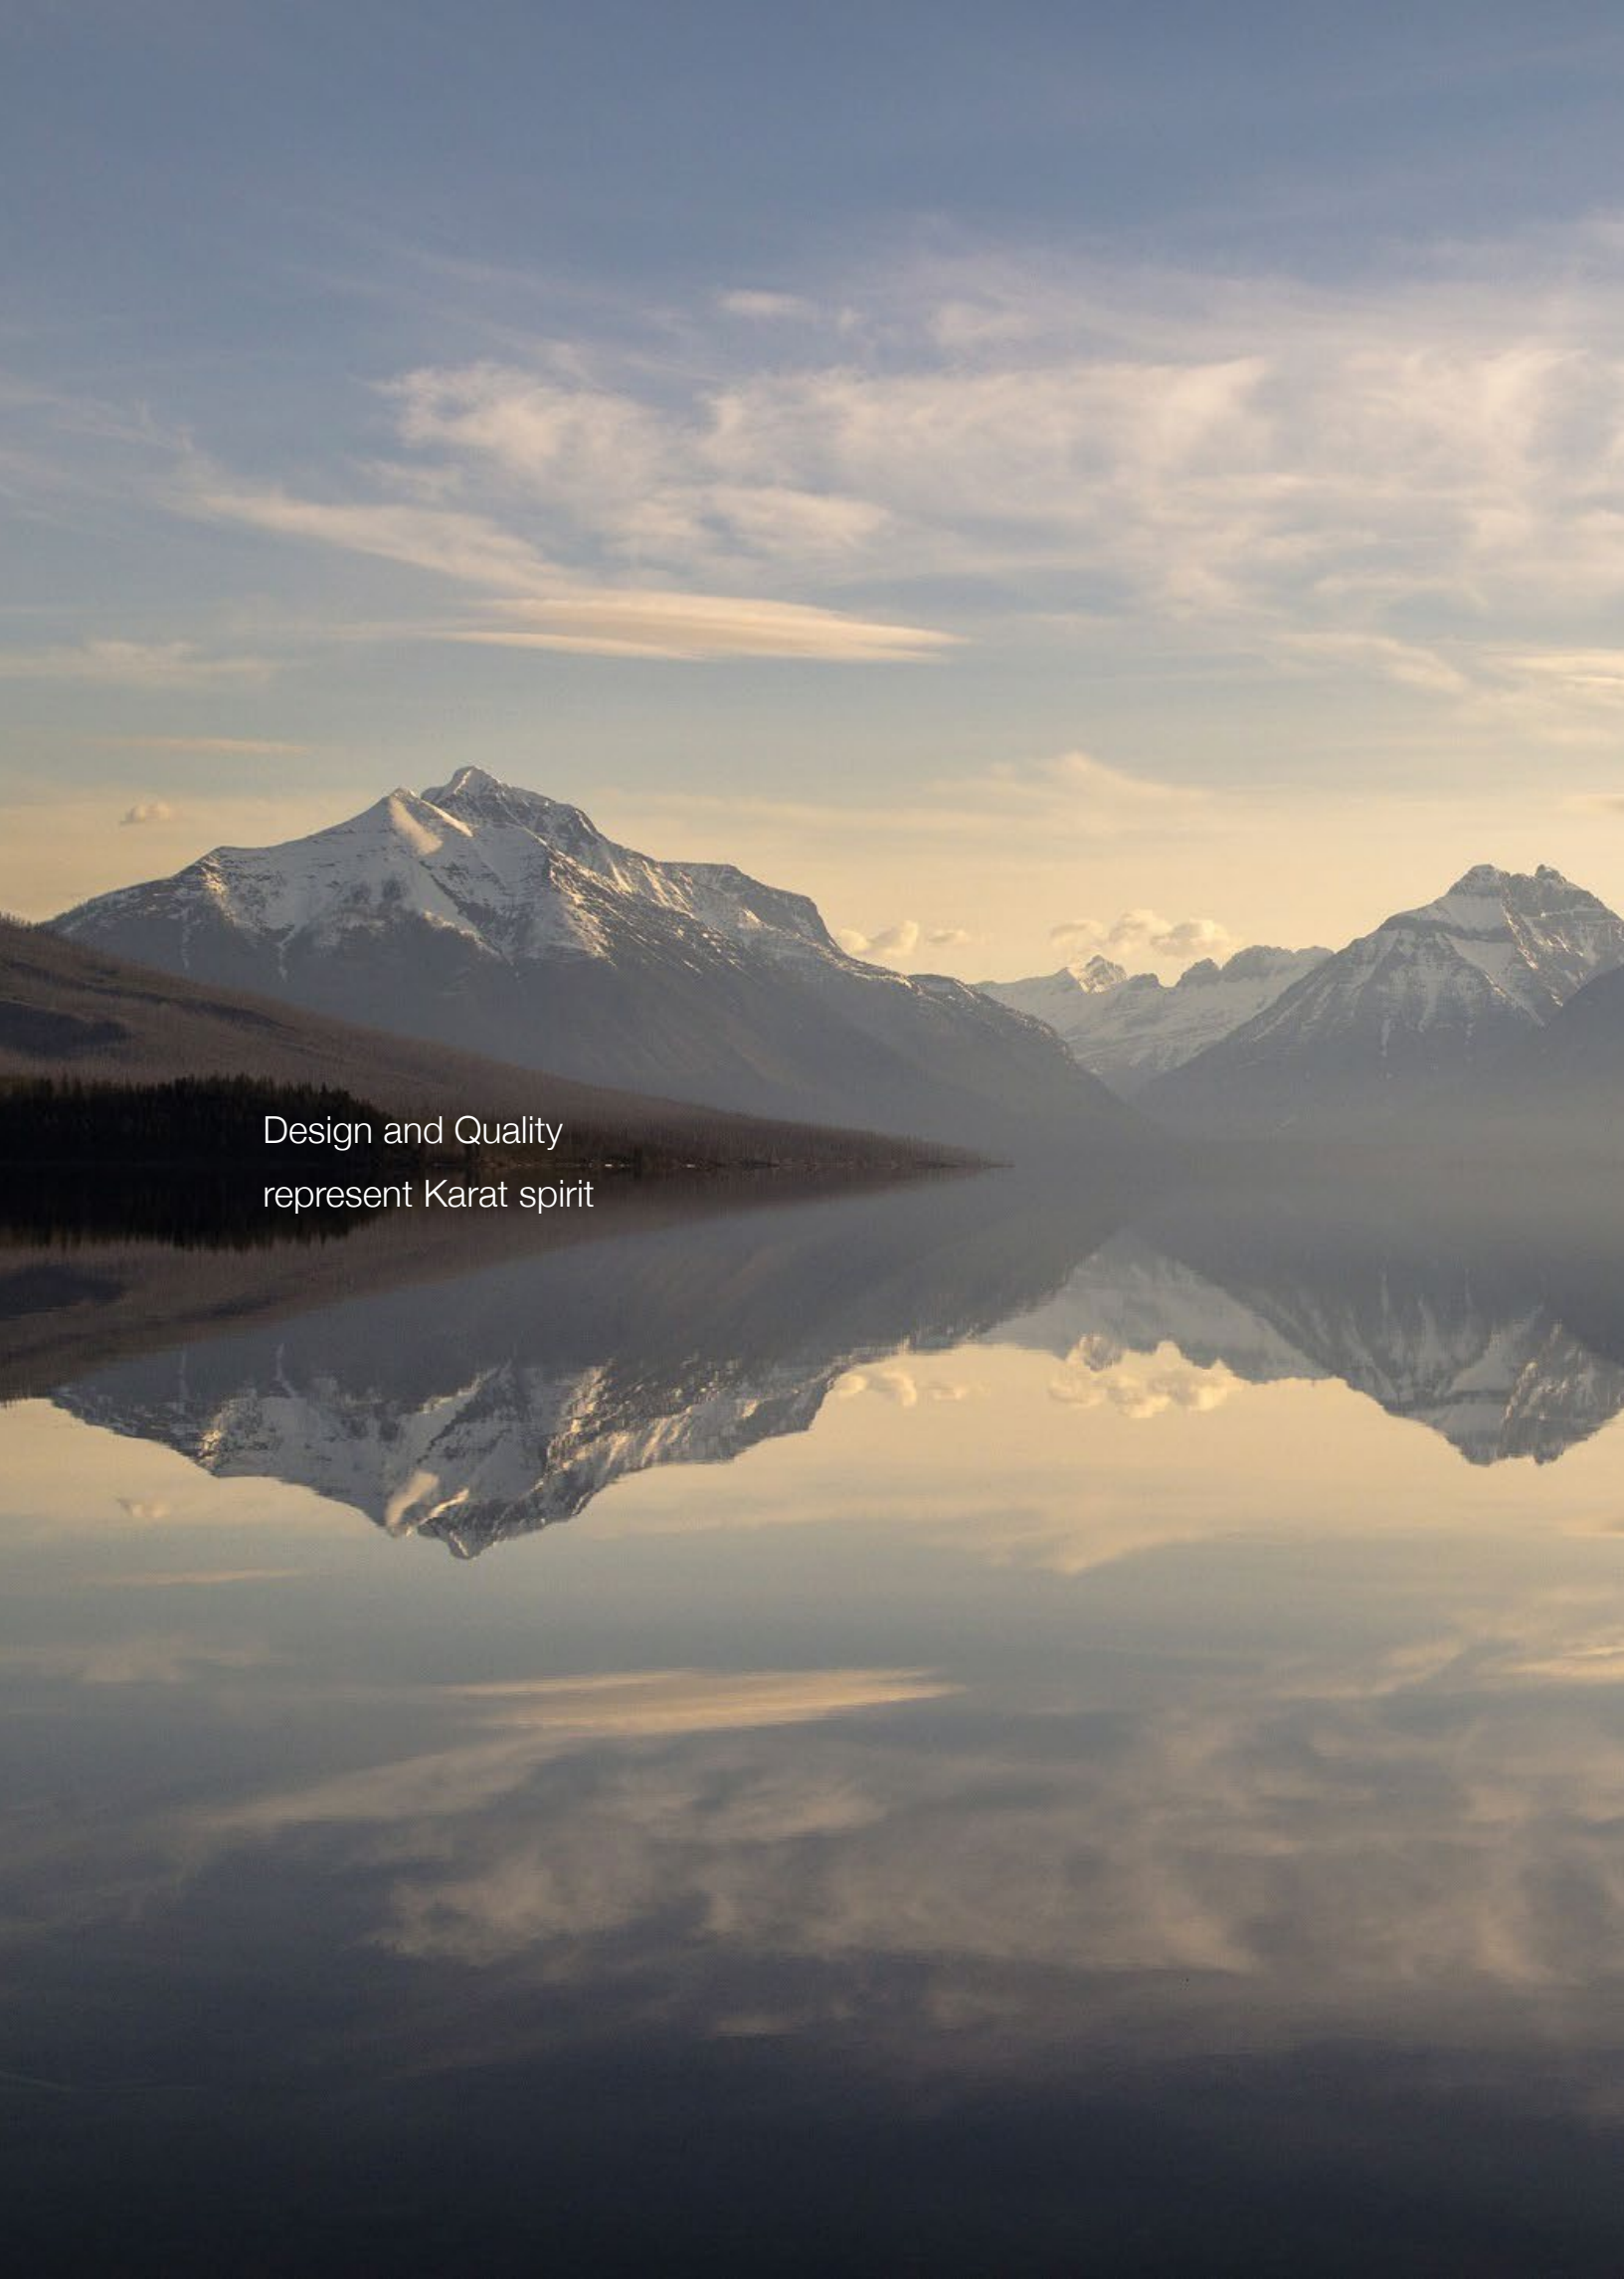

- Antibacterial and Gentle close Seat
- Washdown Flushing System

*Worry Free
Sanitaryware*

Trusted in New Zealand Since 1982

A wide-angle landscape photograph capturing a serene scene at sunset or sunrise. In the foreground, a calm lake perfectly reflects the sky and the surrounding mountains. The sky is a mix of soft blues and warm oranges, with wispy clouds catching the low sun. Two prominent, rugged mountains with significant snow cover stand on either side of a central valley. The reflection in the water is sharp and clear, creating a symmetrical effect. The overall mood is peaceful and majestic.

Design and Quality
represent Karat spirit

A scenic landscape of snow-capped mountains reflected in a calm lake at sunset. The sky is filled with soft, golden light and wispy clouds. The mountains are dark and rugged, with patches of snow. The water is still, creating a perfect mirror image of the mountains and sky above.

KARAT®

A KOHLER COMPANY

1996

KARAT sanitaryware factory become the first Thai sanitaryware manufacturer to be accredited with ISO 9002 certificate

1983

KARAT was established in Thailand
The brand is well known throughout the region for its superior quality.

1998

KARAT was the leader of Water saving sanitary ware in Thailand (3.75 Litres per flush)

QMS03094/698t

ISO 9001

Karat sanitaryware public company limited was established in 1983. Karat's principal activity being the manufacturing and distribution of water-saving sanitaryware product and accessories with production facilities in Thailand.

Karat's main products are bathroom fixtures toilets, lavatories, urinals, bidets and bathing. The brand is well known throughout the region for its superior quality.

In 1996 and 2000, Karat became the first Thai sanitaryware manufacturer to be accredited with ISO 9002 certificate and acknowledged by IAPMO Research and Testing, Inc. USA respectively. Apart from offering a wide range of products that meet different consumer needs, Karat is also the pioneer of 3.75 liters water-saving toilets.

In 2002, Karat became part of The Kohler Family of Businesses, long recognized as global leader in kitchen and bath designs. With Kohler's worldwide reputation, the company has then changed the name to Kohler (Thailand) Public Co., Ltd.

Today, Kohler (Thailand) has production facilities in Kang Khoi district, Saraburi with multiple world-class vitreous china factories, making the company the largest sanitaryware manufacturer in Asia with the highest production capacity. Kohler (Thailand) offers high quality products under three brands: KOHLER, KARAT and ENGLEFIELD.

EASY SAVING

KARAT Sanitaryware creates products with a concept to support multipurpose uses featuring the designs and water-saving technology that sticks to environment protection. Therefore, KARAT focuses on improving products to save water, and maintain its perfect flushing efficiency.

We are the manufacturing leader of sanitaryware that using water only 3.75 Litres

Water consumption for 1 Flush

Water consumption per 1 year

(Approx 4 people/house and 4 times flushing/day/person)

	1 people/day	water saving	9 litres
	1 family/day	water saving	36 litres
	1 family/year	water saving	13,140 litres
	1 people/day	water saving	6 litres
	1 family/day	water saving	24 litres
	1 family/year	water saving	8,760 litres
	1 people/day	water saving	4.8 litres
	1 family/day	water saving	19.2 litres
	1 family/year	water saving	7,008 litres

Siphonic Washdown Flushing System

Maximum flushing power

with Siphonic Washdown

Increased flushing performance eliminating waste quickly with one flush.
Saves up to 38% of water used compared with other brands. Eco-friendly
and Thai Industrial Standard (TIS) certified.

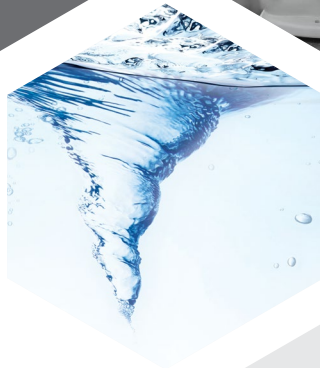

TIS.792-2554

The worthiness of
KARAT
Sanitaryware

Worth of quality

KARAT Sanitaryware is made by vitreous china, high quality ceramic that is manufactured in the equivalent standard as those in the USA. It has been with Thai people longer than 30 years.

Worth of performance

With the performance of Siphonic Washdown flushing system that is clean and flawless, you don't have to worry about re-flushes. It is guaranteed by Thai Industrial Standard (TISI).

Worth of price

KARAT Sanitaryware has its own factory in Thailand and use fine domestic materials. This can save the cost and the products are sold in reasonable prices.

Worth of resource

KARAT Sanitaryware always thinks of environment conservation. So, we have invented a water-saving innovation and being a manufacturing leader of sanitaryware using water only 3.75 liters (save water up to 38%) with no reduction in its flushing performance.

WHY KARAT?

Smart to Save

KARAT Sanitaryware is a leader in water-savings, having been the first to use 3.75 liters for a high-performance flush. With great care to the environment, our products are guaranteed with green label certification from the Thailand Environment Institute and the Thai Industrial Standards Institute.

Water consumption per 1 flush

Water consumption per 1 year

(Approx 4 people/house and 4 times flushing/day/people)

	/		water saving	9	litres
	/		water saving	36	litres
	/		water saving	13,140	litres

*We are the manufacturing leader of sanitaryware that using water only **3.75** Litres*

Smart to Use

Quality and durability of the ceramic

KARAT's Vitreous china is a ceramic with low water absorption, less than 0.5% of its weight. It will not be a reservoir of fungus and bacteria and is easy to clean

Quality guaranteed

KARAT Sanitaryware is certificated by Thai Industrial Standard (TIS), and ISO standard of Carbon Footprint for Organization.

Flush Performance

KARAT Sanitaryware has passed the Thai Industrial Standard, and you can be confident in cleanliness from its flushing performance

Exceptional and Modern design

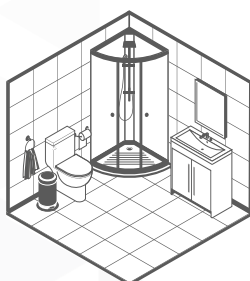

Effective functions come in simple, modern and beautiful design, matching with every bathroom style.

Comfortable Seating

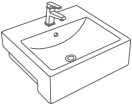

Designed with physiology concerning and fit to Asians, making them comfortable and painless while sitting.

Smart to Fit

Over the years, KARAT has created the perfect combination of function and design, that specially focuses on our user's comfort and fits with everyone in the family. Combined with our water saving technology, KARAT's products can fulfill your needs faultlessly and satisfy everyone in your family.

BATHROOM FAUCETS

Trusted in New Zealand Since 1982

TRUSTED BY GENERATIONS

Roger Englefield, began his working life as a plumber in Waimate, New Zealand, but his trademark entrepreneurial flair enabled him to start a number of very successful related companies, in Christchurch, specialising in plumbing and large injection moulded products.

In the late seventies, he moved to Auckland and recognising a niche in the market, set up a small operation in Glenfield, producing baths for a company supplying to the Australasian market.

His son Derek joined him, and in the eighties, they took the opportunity to manufacture as their own entity. Shower manufacture soon followed baths, and innovative products such as the complete shower enclosure, and the Cabana complete shower with ceiling were developed. Roger, and his son Derek, continued to expand the business, exporting predominantly to Australia and Asia, and winning a plethora of Plastic Institute and Design Awards along the way.

TRUSTED BY GENERATIONS

Englefield quickly became a leading brand in Australasia, with the reputation of supplying top quality products that could be trusted to endure. In 2000, KOHLER U.S.A purchased Englefield, adding sanitary products (toilets), to the range, so providing the complete bathroom solution.

Englefield is excited about the future and looks forward to pioneering more of the world's latest technologies and breaking the mould with innovative designs. Englefield cares about the details and understands that not every bathroom is the same and not everyone wants the same things for their bathrooms. But, most importantly, Englefield believes in delivering solutions for a satisfying experience, every time.

Standard

Lifetime Warranty

- ENGLEFIELD faucets endure testing from 350,000 on/off cycles
- Anti-leak ceramic valve

(Ceramic Valve System)

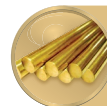

(Ceramic Cartridge System)

Quality Brand
from New Zealand

Lifetime
Warranty

High Quality
Materials

Shiny

Durable Surface

Shiny and durable with nickle and chrome finish that exceed the industry standard.

Saving

Water Saving

With the imported aerator from the Germany manufacturer, it provides filtering different kinds of sediments, mixed with air which makes the water flow soft and tender.

Ceramic Cartridge System

Durable Surface

Ceramic Valve System

With Nickel and Chrome finish that exceed the industry standard, ENGLEFIELD faucet's surface is durable, shiny and non-rust

With the ceramic disc cartridges which the testing is beyond industry standard, it ensures that ENGLEFIELD faucet's valves are going to last the lifetime of the faucet

With the imported aerator from the Germany manufacturer, it provides filtering different kinds of sediments, mixed with air which makes the water flow soft and tender. The most important is that the aerator is water saving, up to 30%

ENGLEFIELD faucet is made of high quality brass which is durable, very low chance of corrosion of metal in hard water areas.

A close-up photograph of water flowing into a sink drain. The water is captured in a clear, vertical stream, creating a dynamic sense of movement. The drain cover is a circular, polished metal piece with the word 'ENGLER' embossed on it. The surrounding sink surface is white and shows ripples from the water. A white rectangular box is overlaid on the right side of the image, containing the word 'FITTINGS' in blue capital letters.
